TO WRAP IT UP

I've worn many hats throughout my career, taking on roles like Graphic Artist, Software Engineer, Project Manager, and even serving as a Software Development Manager & Head, Group Data Protection Officer, Chief Information Security Officer, and Regional & Global Chief Technology Officer.

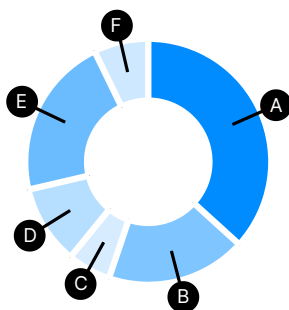

WHAT I DO

Chief Technology Officer

- Develop and lead the strategic vision for our technology platforms, partnerships, and external relationships.
- Engage with and lead relationships with key strategic external partners and alliances.
- Evaluate, compare, select, and implement cutting-edge technology solutions to address both current and future business needs.
- Contribute to the recruitment, onboarding, and training of IT managers.
- Deliver comprehensive reports on the company's technology landscape, objectives, and progress to key stakeholders.
- Serve as a vital member of the executive committee, aligning technology initiatives with departmental and organizational objectives.
- Collaborate with senior stakeholders to establish, enhance, and mature our capabilities through strategic industry partnerships.
- Develop and oversee key performance indicators (KPIs) to gauge the IT department's performance and impact.
- Take responsibility for managing the department's budget efficiently.
